

# CCNA v1.1 Update

- v1.1 of the CCNA goes live on August 20<sup>th</sup> 2024
- Two main questions:
  - Will this course be updated?
  - Should you study for the old or new exam?

# CCNA v1.1 Update Summary

- Changes:
  - DNA Center (rebranded to 'Catalyst Center') is no longer specifically mentioned in 'Automation and Programmability' section.
  - Puppet and Chef removed. Ansible still included, Terraform added.
- Added topics:
  - Spanning Tree Loop Guard and BPDU Filter
  - Cloud managed network device access methods
  - REST based API authentication types
  - AI and machine learning in network operations
